

**Think ahead, plan ahead
and stay ahead
with equipment service by Bayer**

Equipment Service

We're your partner for peace of mind.

Equipment service by Bayer is built on optimising product uptime, maximising value, and keeping Bayer devices performing at peak efficiency.

Around the world, hospitals and health care organisations rely on Bayer for the comprehensive programs and service essentials that drive productivity, reliability and cost-effective performance. And that's peace of mind that lets you think ahead and focus on your patients.

Predictive Maintenance

Predictive Maintenance (PM) is Bayer's proprietary annual program of calibration, proactive hardware and software updates, complete inspection and functional check per OEM procedures. PMs are designed to safeguard performance, anticipate and prevent service interruptions, meet or exceed accreditation standards and maintain your mission-critical devices.

PM provides...

- › Calibration per manufacturers specifications and procedures
- › Proprietary software updates to enhance product performance
- › Complete inspection and functional check
- › Service by a Bayer trained field service engineer

VirtualCARE™ Remote Support

VirtualCARE™ Remote Support is round-the-clock remote support for Bayer devices¹, identifying issues before they become problems and providing real-time monitoring, advanced diagnostics and rapid resolution.

Only VirtualCARE

- › Continuously monitors Bayer devices and detects errors automatically
- › Receives service requests instantly, generated at point of care
- › Provides fast, effective, informed event assessment and determination
- › Resolves software issues remotely in minutes rather than hours

¹ VirtualCARE is available on

- › MEDRAD® Centargo CT Injection System
- › MEDRAD® Stellant CT Injection System
- › MEDRAD® Stellant FLEX CT Injection System
- › MEDRAD® MRXperion MR Injection System
- › MEDRAD® Avanta Fluid Management Injection System
- › MEDRAD® Mark 7 Arterion Injection System
- › MEDRAD® Intego PET Infusion System
- › Radimetrics™ Enterprise Platform

Technical Assistance Centres (TACs)

Bayer Technical Assistance Centres are a global network of state-of-the-art rapid response centres, staffed by Bayer trained engineers and technicians, and offering extensive technical resources, knowledge and capabilities.

Bayer currently operates six regional TACs across the globe, in the United States, Brazil, The Netherlands, Japan, China and Australia.

In Australia, TAC troubleshooters are available Monday - Friday, 9am - 5pm AEST to Bayer customers to assess situations, answer questions and help diagnose problems.

Quality Care and Exceptional Value in Four Customised Solutions:

	ExtendedCARE <small>Service Agreement Programs</small>	DirectCARE™ <small>Service Agreement Programs</small>	SelectCARE+ <small>Service Agreement Programs</small>	SelectCARE™ <small>Service Agreement Programs</small>
